Michelangelo Lovelace Fort Gansevoort

This online exhibition titled “Nightshift” features a collection of drawings by Michelangelo Lovelace. The drawings are from his 30 years working as a nurse’s aide in nursing homes throughout Cleveland, OH. From the bedsides and common areas, he drew what he saw. “Nightshift” is quite fitting during the COVID-19 outbreak as it lets the viewer get an inside glimpse into nursing homes, that are no doubt going through hard times at the moment.
